NASA SEWP VI Overview and Guide

GovSmart, a HUBZone Value-Added Reseller, was founded in 2009 by two ambitious techies who take the term "value-added" to heart. Our highly qualified team takes a solution-driven approach to meet our customers' most challenging IT needs. We partner with world-class OEMs and service providers to offer the most competitive pricing while simplifying the procurement process.

What is SEWP VI?

Solutions for Enterprise-Wide Procurement (SEWP) is an Office of Management and Budget authorized Government Wide-Acquisition Contract (GWAC) covering everything IT. The SEWP VI contract can be used by all federal agencies and approved federal contractors. GovSmart is a HUBZone Small Business and 8(a) graduate as a prime contractor on SEWP VI. We will assist you through the entire procurement process using our SEWP VI contract.

Unlike GSA and many other contracts, the SEWP VI product addition and refresh process enables commodities to be added and updated regularly each day to help minimize acquisition timeframes; sometimes to as little as one-day. SEWP VI also has a fee of only .34%, which is considerably lower than GSA and most other GWACs.

Under SEWP VI, the term Information Technology is defined as any equipment or interconnected system or subsystem of equipment, that is used in the automatic acquisition, storage, manipulation, management, movement, control, display, switching, interchange, transmission, or reception of data or information by the executive agency. The term includes computers, ancillary (supporting) equipment, software, firmware and similar procedures, services (including support services), equipment for classified information management, end-of-life solutions, and related resources.

We stand ready to assist you from quote to delivery. Contact us for more information on how GovSmart can provide intelligent solutions to all of your IT needs!

How to order from SEWP VI

- **Step 1** Define scope of project and all requirements
- **Step 2** Contact GovSmart for a market research estimate so that products can be added to the contract for immediate purchase
- **Step 3** After receiving estimate from GovSmart, log into SEWP (https://www.sewp.nasa.gov/sewpvi/)
- **Step 4** Include GovSmart in your Contract Holder selection, and upload applicable documents (RFP, specs sheets, etc.)
- **Step 5** Select the close time for the solicitation (can be same-day if needed)
- **Step 6** Select awardee and create contract using your internal purchasing system
- **Step 7** Issue award to sewporders@sewp.nasa.gov and copy sales@govsmart.com
